fore Executive For His
Information.

(International News Service.)
WASHINGTON, Dec. 5.—The
strain of the Mexican situation
was materially lessened this af-
ternoon when it was announced
at 1:55 that Wm. O. Jenkins,
American consular agent, has
been released from jail by the
Carranza government which has
been investigating charges that
Jenkins was seized by bandits
through a pre-arrangement, so
that Jenkins would get a share
of the ransom money. Jenkin's
release had been demanded by the
American government.

SAN ANTONIO, Dec. 5.—A
special to the San Antonio Even-
ing News from Laredo says:
County Judge A. P. Spohn of Zap-
ata county who is in Laredo this
morning received a telephone mes-
sage from Zapata informing him
of a raid by a band of Mexican
bandits on the Clarendo ranch, on
American territory, eleven miles
down the Rio Grande from the
town of Zapata, late last night.

(International News Service.)
WASHINGTON, Dec. 5.—President
Wilson will meet Senators Hitchcock
and Fall at 2:30 this afternoon, it was
announced today.

Senator Hitchcock telephoned to the
white house at 10:30 o'clock last night
to see if an audience could be had
with President Wilson. He told Sec-
retary Tumulty that it was not neces-
sary to see the chief executive today
but that Saturday, Sunday or even
Monday would do. This matters were
left until today. This morning Mrs.
Wilson announced to Secretary Tu-
multy that the president desired to
see the committee of two from the
senate as early as possible and set the
time for 2:30 o'clock.

The Mexican crisis therefore is
now up to the President of the U. S.
along with all the complex situation
arising out of it. All the rumors and
reports as to the President's in-
capacity, owing to illness, to deal with
affairs of state will now be definitely
settled, as well as the question dis-
cussed yesterday in the senate as to
whether the president knew anything
whatsoever of the Jenkins affair and
present complications with Mexico.

TROOPS ON BORDER

(International News Service.)
WASHINGTON, Dec. 5.—90,000
U. S. soldiers and officers are sta-
tioned on the Mexican border. This
fact was brought out at the meeting

mittee this afternoon.

The Anti-Dumping Tariff Law Given Favorable Report

(International News Service.)
WASHINGTON, Dec. 5.—A favor-
able report on the anti-dumping tariff
bill was ordered today by the house
ways and means committee. This leg-
islation, framed by Representative
Fordney, chairman of the committee,
imposes adjustable tariffs which will
prevent the dumping on the American
market of cheap surplus stocks of
European manufacturers at sale
prices which American manufacturers
of similar products claim would de-
stroy them and their business. The
bill will be taken up next week for
passage by the house.

WETS ATTEMPT BY WRIT OF MANDAMUS DEFEAT AMENDMENT

(International News Service.)

WASHINGTON, Dec. 5.—A writ of mandamus against Sec-
retary Lansing requiring him to cancel the proclamation for na-
tional prohibition was filed in the supreme court of the District
of Columbia today by Robt. Wiseman, of New York.

TO REQUEST FRANCE PERMIT RETURN OF U. S. SOLDIER DEAD

(International News Service.)

WASHINGTON, Dec. 5.—France
will be requested by congress at an
early date to facilitate legislation to
permit the speedy return of the bod-
ies of American soldier-dead, now
interred in that country.

The House foreign affairs com-
mittee plans to bring out shortly a
joint resolution making the request
of the French government and direct-
ing the secretary of war to arrange
for the transportation of the bodies
to their next of kin in this country.
Such a measure is expected to pass
both house and senate with little de-
bate and little opposition.

FIGHTING MEN TO GET PAY INCREASE

(International News Service.)

WASHINGTON, Dec. 5.—A flat in-
crease of 10 per cent for officers and
20 per cent for enlisted men of the
army, navy and marine corps was vot-
ed today by the senate military af-
fairs committee. The provisions of
the bill, if passed, would add \$59,000,
000 to the military and naval pay roll.

Enumerators Get 4 Cents Per Name

Local census enumerators will get
four cents for each name taken instead
of 3 cents, according to information
received here this morning from
Washington. Walter F. Miller, su-
pervisor of the census for the Eighth
district, is expected to announce the
enumerators here is a short time. The
census will be taken in January, two
weeks being allowed for its comple-
tion. Enumerators on farms will get
30 cents instead of 25 cents.

Selma Papers Also Will Raise Rates

(International News Service.)

SELMA, Ala., Dec. 5.—On account
of the high cost and shortage of
newsprint paper the Selma Journal
will raise its rates Sunday. Subscrip-
tion will be advanced 15 per cent
and advertising rates will be advanced
from 25 to 36 cents an inch. It is
understood the Selma Times will fol-
low suit with an increase in rates al-
so.

BLUE SKY LAW NOT IN CONFLICT WITH THE PLANS TO BUILD BRIDGE

Last Barrier to Immediate Campaign for Sale of
Stock is Removed.

The Alabama Public Securities
commission has ruled that the Lime-
stone-Morgan Bridge company's plan
for sale of stock to build a bridge
across the Tennessee river here does
not come within the new "blue sky"
law passed by the recent legislature
and the last barrier to the immediate
start of the campaign for sale of the
stock is removed.

POWER COMPANY SPEEDS WORK ON HIGH TENSION LINE

(International News Service.)

GADSDEN, Dec. 5.—In order to
rush construction work on its high
tension lines to Huntsville, the Ala-
bama Power Company has dropped all
condemnation proceedings here and
has effected compromise settlements
for rights of way which has been in
controversy for years. The urgent
need of Huntsville for relief from
power shortage due to lack of "con-
sumption" is given as the reason. The
power company is installing at its
East Gadsden steam reserve plant
automatic stokers, similar to those
used at the Muscle Shoals nitrate
plant.

GILCHRIST CASES ARE SET FOR TRIAL

The case of Dan Gilchrist, charged
with murder in connection with the
death of E. L. Wann who was fatally
wounded during an affray on the de-
pot platform at Courtland has been
set for trial at the special term of the
Lawrence circuit court Tuesday. His
brother, Garth Gilchrist, also held on
a murder charge in the same case, will
be tried Thursday.

The two defendants were indicted
by the special grand jury which has
just concluded its sessions at Moulton.

Lamps in Stores Recall Olden Days

Albany and Decatur merchants went
back to the days before the construc-
tion of the first electric light plant
here last night, when many of the
stores were open with candles and
lamps furnishing the light and heat,
in accordance with the government's
fuel conservation restrictions.

The late afternoon and night trade,
since the government restrictions went
into effect, has shown a decline over
the business formerly done after 4
o'clock, the public generally appear-
ing to wish to trade "by daylight."

Legion Buttons Are Distributed

A limited number of American
Legion buttons have been received
and are being distributed among the
members of the Morgan County post
today. Many new members are be-
ing obtained by the Post.

LEGION POST MAY BE GIVEN HOME IN FEDERAL BUILDING DRIVE IS PLANNED

Request Will be Made by Letter
to the U. S. Treasury
Department.

LEGIONAIRES WILL GO AFTER MORE MEMBERS

Membership Committee Named
Last Night, Will Report
at Next Meeting.

The Morgan County post of the
American Legion has a very good
chance of obtaining permanent head-
quarters in the new Federal building
now being erected on lower Bank
street, according to information
brought out at the regular meeting
of the Legion last night.

Captain Langley, government rep-
resentative here during the construc-
tion of the building and a member of
the local post, told the Post that as
a representative of the treasury de-
partment he could not advocate the
Legion obtaining one of the large
rooms in the new postoffice, but that
if a letter was directed to him from
the Legion, requesting one of the
rooms, he would forward it to Wash-
ington and he believed the request
would be granted. B. M. Bloodworth,
post adjutant, was directed to write
Capt. Langley immediately.

The meeting last night was one of
the most enthusiastic ever held by
the local Post. A membership cam-
paign was discussed at length by
Charles Eyster, R. W. Cowart, Ralph
White, Spencer Gannett, Joseph Pet-
ty, E. K. Gay, John Davis, Captain
Langley, Rev. W. N. Sholl and others.
Vice Commander T. C. Almon, pre-
siding in the absence of Com-mander
Burleson, appointed the following
committee to work out plans for a
membership drive: Dr. J. Y. Hamill,
chairman; Ralph White, Harold Carter
and B. M. Bloodworth. The committee
will report at the next meeting of the
Post, to be held next Thursday night,
at the Albany Board of Commerce if
the rooms there are available.

It was decided also to make the
next meeting a program affair, with
short addresses by a number of well
known speakers and other "stunts."
Vice Commander Almon will arrange
the program during the next few days.

The Sweet bill, now pending before
congress, was discussed by the Post.
The bill provides for government loans
to all ex-service men of from \$3,000
to \$6,000 by the government for
building homes. The money is loaned
at the extremely low rate of 3 1/2%
and the loan extends for 60 years.
The bill was endorsed at the Minne-
apolis convention of the Legion.

On motion of Spencer Gannett every
member present took five membership
cards and pledged himself to obtain
that many new members prior to the
meeting next Thursday night as a
preliminary step in the membership
drive.

CHENAULT BUYS THE BORTON HOME

The handsome L. W. Borton home
on Jackson street has been sold to Dr.
Frank Chenault, who will occupy the
residence soon, it was announced to-
day. The consideration was not made
public.

Mr. and Mrs. Borton will leave in
two weeks to spend the winter in Flor-
ida. The Borton home is one of the
most attractive in Albany.

AIR DEPARTMENT PROPOSED

(International News Service.)
WASHINGTON, Dec. 5.—Crea-
tion of a department of air with an
officer in the President's cabinet is
provided in a bill favorably reported
by the senate military affairs com-
mittee this afternoon.

MORGAN COUNTY COTTON CROP WORTH MORE THAN \$4,000,000

Staple Ginned Prior to November 21 Valued at
\$3,000,000 and Much More in Field.

The Morgan county cotton crop of
1919 will bring more than \$4,000,000,
according to estimates made here to-
day and based on the report of the
U. S. census bureau, which shows gin-
nings to Nov. 21 of 14,671 bales, as
compared with 16,562 bales for the
same period last year. This is esti-
mating the average 500 pound bale,
with seed, to be worth \$200, and mak-
ing allowance for the cotton that has
been ginned since the report was
made and that is yet in the fields to
be picked. While the yield this year
is light, the higher prices paid for the
staple will bring the money value of
the crop up to last year's standard.

DECATUR COUNCIL ASKED TO TAKE UP INCREASE IN RATE CHARGE FOR GAS

Proposition Will be Considered
Further Before Final Ac-
tion is Taken.

CLERK WILL ADVERTISE CITY'S BIG BOND ISSUE

Many of the Principal Streets of
Decatur Will be
Paved.

The Decatur city council at its reg-
ular meeting last night, received a re-
quest from the Alabama Power com-
pany that the council appoint a com-
mittee of two to meet a similar com-
mittee from the Albany council and
a committee from the power company
to discuss a proposed increase in gas
rates in Albany-Decatur of from \$1.25
to approximately \$1.85.

The council will take up the re-
quest later, consideration of the mat-
ter being postponed last night when
the council met in the council cham-
bers at the Decatur city hall.

The Power company was repre-
sented by T. I. Beauchamp, manager
of the local operations, Charles H.
Eyster, prominent attorney and Mr.
Stanley, of the Birmingham office.

Immediate consideration of the re-
quest by the council was requested
but officials were of the belief that
the proposition should be discussed
more fully than the time allowed last
night.

The council also authorized the city
clerk to advertise \$280,000 worth of
city bonds for sale immediately to pay
the cost of the contemplated paving
of a number of the principal streets in
the city.

Injunction Makes St. Louis "Wet"

(International News Service.)
ST. LOUIS, Dec. 5.—Federal Judge
Farris in the United States district
court here granted injunctions today
to five St. Louis wholesale liquor de-
alers preventing federal authorities
from interfering with the sale of 43,
735 gallons of whiskey and 13,291
gallons of wine, on which the de-
alers had paid taxes. The injunction
also allows the retailing of these
goods by customers of the five whole-
sale concerns.

Monday was the critical day, Judge
Ames said, and fewer men were then
at work than at any time since the
strike began. Since Monday condi-
tions have gradually become better.
Judge Ames leaves tomorrow for In-
dianapolis, where he will assist Judge
Anderson in the prosecution of the
contempt of court proceedings and in
the grand jury investigations of the
operators.

CARPENTIER WINS RIGHT TO BATTLE DEMPSEY FOR TITLE

French Champion Puts Joe
Beckett to Sleep in Just Sev-
enty-four Seconds at London.

(International News Service.)
LONDON, Dec. 4.—George Car-
pentier, French heavyweight cham-
pion, battled his way to an opportu-
nity to meet Jack Dempsey for the
world's ring crown last night when
he knocked out Joe Beckett, English
champion, in seventy four seconds.
Beckett was a 7 to 4 favorite.

As a fight the contest was not spec-
tacular. Carpentier was fast on his
feet, dancing in and out and playing

havoc with the Englishman from the
first lead. With lightning swiftness
Carpentier's left leaped out and caught
Beckett on the face, and a suppressed
sigh was audible all over the house.
A quick breakaway followed a short
clinch, and the Frenchman landed two
more hard lefts.

Beckett, with a sort of bulldog de-
termination, forced Carpentier almost
to the ropes, but this was a diversion
for a moment only, for the French-
man stepped back and then forward,
and, with all his strength and the full
weight of his body, swung his right
to the Englishman's jaw, and Beckett
went down and out.

MANUFACTURER WANTS TO BOYCOTT STRIKERS

Suggests That They be Cut Off
From Clothing and Food
For Awhile.

(International News Service.)
INDIANAPOLIS, Dec. 5.—The
government's investigation into
the activities of miner's officials,
coal operators and dealers will
not be confined to the period of
the coal strike but will cover the
whole period from the time of the
entrance of the United States
into the war. This was learned
from an authoritative source here
today.

Preparation for the federal
grand jury investigation into the
alleged league of operators and
miners to restrict coal production
and the reported combine of the
operators themselves moved
quickly today. Lists of witnesses
who will be subpoenaed to testify
before the special session of the
grand jury which will convene
next Monday are being prepared
by District Attorney Black.

Every indication points to the
most sweeping investigation in-
to the coal situation yet under-
taken. The government is also
preparing its case against miners,
who will answer charges of crimi-
nal contempt of court before
Judge Anderson next Tuesday.

Coal operators from all the
states east of the Mississippi af-
fected by the strike gathered in a
formal secret conference here to-
day to discuss the coal famine
and the investigation by the gov-
ernment. The operators refuse
to talk about the possibilities of a
grand jury probe. They asserted,
however, that they had had done
their best to get the mines re-
opened.

(International News Service.)

WASHINGTON, Dec. 5.—The coal
strike is gradually breaking, Judge
C. B. Ames, assistant attorney gen-
eral today stated. He said that re-
ports reaching the department of
justice show that the miners are grad-
ually returning to work. There are
about 50 per cent of the miners now
at work, Judge Ames said, and offi-
cials believe coal production will in-
crease from now on.

Monday was the critical day, Judge
Ames said, and fewer men were then
at work than at any time since the
strike began. Since Monday condi-
tions have gradually become better.
Judge Ames leaves tomorrow for In-
dianapolis, where he will assist Judge
Anderson in the prosecution of the
contempt of court proceedings and in
the grand jury investigations of the
operators.

SUGGESTS A BOYCOTT

(International News Service.)

CHICAGO, Dec. 5.—A boycott of
clothing, food, fuel and other neces-
sities of life was started against min-
ers of Illinois today whose strike has
reduced working hours throughout
the state, crippled transportation and
brought suffering in its wake. A
prominent member of the Illinois
Manufacturers' association started the
boycott and in a letter to Secretary
John M. Glenn of the association urged
other Illinois merchants to join in
the movement.

"We have a right to fight with the
same weapons they use," he wrote.
"If they want to make us surrender
through cold, we can withhold food
and try to bring them to time with
hunger," he said.

Glenn declared that members of the
association probably would consider

GOLDMAN AND BERKMAN RELUCTANT TO LEAVE

Emma Goldman and Alexander Berkman, notorious anarchists, on the eve of their deportation have attested their love of America by instructing their attorney to institute habeas corpus proceedings in an effort to prevent their enforced exile. Thus these two open enemies of our government are placed in the position of confessing that it is far superior to that of darkest Russia and offers living conditions much better than those of the country from which they came and whose nihilistic teachings they brought to this great republic. Berkman is so enamored of things American that he has ordered a large wardrobe of American clothes to be carried across the ocean with him, so that he may be sartorially in advance of the natives among whom he was born and reared. And when once again he is established in the land of Lenin and Trotsky, where sovietism and anarchy are both practiced and preached, it may be taken for granted that the good things of life which he uses and consumes will come from the States, and will be bought with American money that has been accumulated during a long period of agitation. Like all the other reactionaries and malcontents, Emma and Alex have nothing as good to substitute for what America offers. They are destructionists pure and simple and do not deceive even themselves when they attempt to tear down a structure more beautiful than any that disordered minds could build.

A NEW LUMINARY IN THE PUGILISTIC RING

American sentiment, which always turns towards France because of the assistance given by that nation during the early struggles of the thirteen states, hoped that Georges Carpentier would win the European heavyweight title by defeating Joe Beckett, the English champion. And perhaps because America held a "good thought" for him, or maybe because of the prowess of his good arms, the Frenchman won, and that in a one-round knock out. But with the winning there comes another story, for Carpentier is to fight Dempsey and thus determine whether the United States shall retain the world belt that has been worn by the pugilists of this country for so many years. And the next time there is a ring battle of international consequence, the Yankee hopes and the Yankee dough will both be with the conqueror of Willard. And it should be a fight worth seeing by those who love the flat arena, with all its brutalities, for it will be the first time in history that two men possessing such a staggering punch have clashed.

NEXT YEAR'S FREE FOR ALL

Political forecasters who have been counting upon a Republican sweep in 1920 have ignored some profound signs of the times. If the contest were to be between the two old parties alone, natural reaction might easily lead to Democratic defeat, but that is not to be the line-up. As matters now stand, neither the Republican Party nor the Democrats can be sure of anything. Both have broken

down organically.

A new Labor Party devoted to "political, social and industrial democracy" is already under way and has issued a call for a national convention. A "committee of forty-eight," representing liberal thought, is to meet next month to form a new radical party in opposition to all existing organizations. In addition to the Non-Partisan League of the Northwest there may be another Farmers' Party, and two or more factions of Socialists are certain to present themselves.

While these movements resemble similar ones in the past which amounted to little, public discontent with the old parties may bring at least one of them into commanding importance. There is no assurance that either Republicans or Democrats can agree upon candidates and policies next year. If both of these organizations should split, it would be a wise prophet who could name the winning party or faction in such a free-for-all.

In 1892 more than a million votes unexpectedly polled by the Populists left their impress upon the politics of the country until 1912. It is within the range of possibilities that next year's shattering of party ties will repeat that demonstration with some surprising results, not the least of which may be something more than a temporary alignment of the American people into groups, wings and classes.—New York World.

"Mexico plans to have an air force," says a headline. It can, provided the coal restrictions don't interfere.

The government has naively announced that the U. S. Sugar board will abandon control after January 1. What stronger appeal could any government make to the American sense of humor?

Senator Newberry has put up the conventional political defense—that he is being "maligned by his political enemies."

Most everybody will give odds that Carpenter and Dempsey will end it in one round.

The St. Louis Republic, the first newspaper published west of the Mississippi river, has been forced to consolidate with the St. Louis Globe-Democrat because of the white paper shortage. The Republic was democratic in politics while the Globe-Democrat has always been of republican faith, despite their names.

In Germany and Russia newspapers are suppressed by the government. In the United States they are put out of business by the paper trust.

Senator Fall of New Mexico is considerably excited over the Mexican situation. From his antics it can be easily inferred that the voters of New Mexico are a unit in desiring the reformation of Carranza.

JAMES A. FORMAN

James A. Forman, former sheriff of Morgan county and a prominent resident of Albany, today announced his candidacy for Tax Collector of Morgan county.

"Sheriff" Forman, as he is still called by many friends, has been a life-long resident of Morgan county and is widely known. He is believed to be the largest man who ever took the Shrine degree in North Alabama. He is expected to make a strong race.

Combinations in Soap.

The principle of soap-making is always the same and is based on the combination of fat and an alkali, as in the case of tallow and lye. Variations in soaps are largely due to additions of perfumes, coloring matter and such substances, which have nothing to do with the primary purpose of soap, which is to cleanse.

THOUGHT

If I do what I may in earnest, I need not mourn if I work no great work on the earth. To help the growth of a thought that struggles toward the light; to brush with gentle hand the earth stain from the white of one snowdrop—such is my ambition.—George Macdonald.

EVALYN HEFNER CELEBRATES HER SIXTH ANNIVERSARY

Evalyn, the daughter of Mr. and Mrs. W. E. Hefner gave her little friends a treat Thursday afternoon when she celebrated her sixth anniversary. Christmas is the subject of conversation among the six year olds, now as well as grown ups. To their delight the home was festooned with wreaths of holly and cedars with red mingled in with green. Indoor games made the hours happy. The dining table was a Christmas picture, the central ornament, a large birthday cake surrounded by candles with hoods of red and green. The delicious ices served suggested the expected season. Favors were little cupids dressed in filmy bows of pink and white. The honoree received many souvenirs of the happy occasion. Those present were Bernice and Elkin Himes, Harris and Jane Irwin, Mary Grace Edwards, Clyde Garnett, Mabel Ann Hampton, Marjorie Fussell, Vivian Dickinson, Emily Lile, Helen Fisher, Anne Tillery, Elizabeth Tabor.

NOW FOR THE OPERA

The opera season is on again and in the imagination of the masses the musical season has just begun. To the minds of these the concert prelude of the past month has been but in the nature of preparation. Music, they deem, can be said to have shed its blessings upon the community only when Caruso has lifted up his voice and Geraldine flashed upon their sight the magic of her blandishments. God's in his heaven and all's right with the opera (the Metropolitan Opera, of course) there can be nothing amiss with music of any sort! Blessed among men be Mr. Gatti and blessed the fruit of his endeavors.

Mrs. George Gust of Willow Springs, and Mrs. Lewis Linger of Ft. Wayne, Ind., are the guests of Mesdames Henry Pappenburg and George Muller.

DINNER BRIDGE

Mrs. John Sheets was hostess to the Dinner Bridge club at the residence of Mr. and Mrs. E. H. Allison Thursday evening. After dinner was served, the delightful bridge game was played, R. H. Wolcott making top score. The guests were Mr. and Mrs. J. L. Christy.

SAUNDERS-TARRANT

Mr. and Mrs. R. E. Saunders announce the engagement and the approaching marriage of their daughter, Mary Grace, to Mr. Paul R. Tarrant of Birmingham, No. Cards.

Mrs. E. N. Penick has been quite ill for some days.

PURGATIVES UNNECESSARY EVERY NIGHT

Treat the Kidneys and Blood When Treating the Liver and Frequent Purgatives Will Be Unnecessary.

Dr. Hitchcock's Liver, Kidney & Blood Powders Cleanse the Liver, Regulate the Kidneys and Thereby Purify the Blood. Keeps Your Tripod of Health in Balance.

A Vegetable Compound. Will Not Make You Sick. Eat Anything You Like.

The Liver, Kidneys and Blood—the Tripod of Health—do not function independently, but if one becomes disordered, they all three suffer.

Dr. Hitchcock's Liver, Kidney & Blood Powders, a purely vegetable compound that will not make you sick, will cleanse the liver, stimulate the kidneys to healthy action, thus purifying the blood, and keeping your Tripod of Health in balance.

When you treat the liver alone, you only treat a third of your trouble. When bilious, constipated, headachy, feel blue and rheumatic, get a large tin box of Dr. Hitchcock's Liver, Kidney & Blood Powders for 25 cents, take a teaspoonful at night and it will straighten you out by morning.

REMEMBER FUNNY FRED
GOODWINS IN PICKFORD
PICTURE? DELITE TODAY

He Support Bryant Washburn in
"The Way of a Man With
a Maid."

Do you remember the funny young
man-about-town who appeared with
Norman Kerry in support of Mary
Pickford in "Amarilly of Clothes-line
Alley?" That was Fred Goodwins.
Goodwins is an Englishman and he
has brought a new type of comedy to
the screen. His excellent work with
Douglas Fairbanks in "Mr. Fixit"
will also be remembered.

Now, in "The Way of a Man With
a Maid," the new Paramount Picture
in which Bryant Washburn is starred,
which will be shown at the Delite
theatre today Mr. Goodwin again
comes into his own with a charming-
ly conceived screen portrait of one
Bick Olsen, a clerk, and the friend
of Arthur McArney, played by Bry-
ant Washburn.

Bick was one of these get-there
boys, one of these "DO-IT-NOW" fel-
lows, and he instilled something of
his pep into McArney. With Wanda

Pepto-Mangan Brings Boom of Health

Helps Restore Worn-Out, Thin-
Blooded Men and Women to
Health and Happiness.

PHYSICIANS RECOMMEND IT

Sold in Liquid and Tablet Form Both

—Insist on "Gude's"

Most every case of a sallow com-
plexion and a languid feeling is trace-
able to watery, impoverished blood
deficient in oxygen-carrying red blood
cells.

Inasmuch as the entire system de-
pends on the blood for its nourish-
ment and strength, it is readily un-
derstood why thin-blooded people always
feel worn-out and run-down.

And it is equally plain that to re-
store the vigor of rugged health, the
blood should be supplied with the
needed qualities to enable it to build
up the system.

Gude's Pepto-Mangan accomplishes
the very result. In a short time the
beneficial results are clearly mani-
fest. The cheeks fill out and regain
the bloom of health, the eyes sparkle,
the step regains its elasticity, the
whole system is filled with greater
vitality.

Gude's Pepto-Mangan is a safe,
beneficial and pleasant tonic. Agrees
with the most delicate stomach, and
is obtainable in either liquid or tab-
let form.

Be sure the name "Gude's" is on
the package when you buy Pepto-
Mangan. Ask the druggist for
"Gude's". If "Gude's" is not on the
package it is not Pepto-Mangan.—

"THE GLORIOUS LADY"
A LAVISH PICTURE
MASONIC SATURDAY

Olive Thomas' third Selznick pic-
ture, "The Glorious Lady," which is to
be at the Masonic theatre Saturday is
a story which makes a strong mental
appeal. And so perfectly has it been
done, so beautiful the interior and
exterior settings, that the appeal made
to the eye is every bit as strong. One
sees a perfect replica of an English
mansion house, wherein every single
detail indicates a perfect technical
knowledge. One is treated to gorgeous
exterior settings that seem redolent
of the very atmosphere of Merrie
England. One is treated to what
seems one long succession of beau-
tiful pictures, each one perfect and
each one marked by that perfect ease
so characteristic of anything that
bears the Selznick imprint.

Mortgage on a Cat.

There was filed in the office of the
recorder of deeds in Stockton, Mo., the
most unusual chattel mortgage ever
presented at the office. The articles
mentioned to secure a debt of \$46
were as follows: One shotgun, one
Winchester rifle, two violins, one black
tomcat with white feet, named Tom.
It was not specified that the guns had
hammers nor the fiddle with bow, but
the identification of the tomcat was
considered by the mortgagee the most
valuable part of the security.—St.
Louis Republic.

Embers.
Winter fuel is being gathered up
wherever it may be found this autumn.
In Paris the coal carts which all day
lumber along the Avenue de Versailles
on the edge of the Seine are followed
by a troop of women and children
armed with sacks and baskets. The
road is worn, there are many holes,
the jolts are frequent and bits of coal
or coke come tumbling down. There
is a rush and eager hands thrust the
black treasure into grimy baskets and
gaping sacks. The gleaners organize
themselves into shifts—it's worth do-
ing—they get as much as a sackful—
one hundredweight—in one quarter of
an hour. This Paris is taking in its
sack—in good time. In London where
all the streets or nearly all, have been
in this August and September there
has been a harvest of half-worn tarred
sack blocks—little heaps of them
along the side of the road. No lack of
customers either, and in areas and
back yards tidy little stores of blocks
have been put by for use in the com-
ing winter.

Paternal Wisdom.
"Pa, what is an 'impresario'?"
"An impresario, my son, is a—
a man who runs a restaurant."
"But, pa, I thought he had some-
thing to do with a theater."
"That's right, my son. He's a man
who runs a restaurant in connection
with a theater."—Birmingham Age-
Herald.

Fashion's Power.
"Some of the most fashionable peo-
ple are going to wear old clothes."
"That's terrible news," wailed the
man with shiny sleeves.
"Why terrible?"
"If old clothes become fashionable
they'll cost so much that nobody can
afford to buy a second-hand suit."

NOT SICK AND NOT WELL

In The Peculiar Situation Described,
ZIRON Iron Tonic Is Found Helpful.

It often happens that the organs of your
body do not function properly, for some
reason or other. There is nothing really
wrong, and you are not sick. But cer-
tainly you are not well, either.

If you are in such a condition, read
what Mr. Wm. M. Bass, Rt. 1, Crossville,
Ala., did, and try Ziron Iron Tonic, as
he did. Mr. Bass says:

"I am nearly always pretty well and
strong and do not need much medicine
excepting for headaches. But, recently,
when I had not been feeling very well
for a while, I knew I needed some sort
of medicine to make me all right."

I took Ziron and it made me strong and
well again."

Ziron puts iron into the blood, and, by
doing this, may prevent a serious attack
of illness, which you are liable to "catch"
at any time if your system is weakened
or your condition below par.

Ziron has well proven its value as a
tonic. Try it when you feel the least bit
out of sorts, not quite as good as usual,
tired and weary.

Your druggist sells Ziron on a money-
back guarantee. ZN 10

789 ACRES, HOME OF MR. and MRS. J. J. BURK, MOSELY FARM, FRONTING ON COURTLAND PIKE,

Is being sub-divided into small and desirable tracts—20 to 80 acres—suitable for suburban homes. The property is located in one of the best sections around the Twin Cities, adjoining the land of Echols, McIntyre, Young and others, and is close in enough to schools, churches and business.

The soil is red clay foundation and river bottom loam; in fact, is considered one of the best farm and sub-division properties around the cities. The farm has considerable pike frontage and a new public road is being laid out from the pike north, through the center of the property to the Tennessee river, and has beautiful building sites on practically every tract. The land is gently rolling, with running streams and several tracts for stock water. The river bottom is very productive, corn land producing 40 to 60 bushels per acre.

Look this over before sale day. Select your block and go after it, as the farm will not be offered as one tract, but is up to the HIGHEST BIDDER in small tracts only, and at YOUR PRICE.

DECATUR-ALBANY—the twin cities of North Alabama, with the L. & N. and Southern Railroads, and river transportation will soon have deep water and a new bridge, with the great Muscle Shoals development nearby, with all of their multiplying industries, heavy pay rolls, good climate and healthful locations. Best markets for everything produced. Good schools, churches and up-to-date merchants and business men. A golden promise doth the future hold for this great section.

THINK! Will real estate ever grow cheaper in a community like this?

TERMS—EASY. Only one-fourth cash on or before January 1, 1920; balance 1, 2, 3, 4 and 5 long years with interest. Cash or approved note for first payment—The land will pay the rest.

CLOSING OUT SALE. Impossible for Mr. Burk to devote any time or attention to the farm—only reason for selling. Therefore it's up to you. Take advantage of this—the greatest opportunity in a lifetime. Buy one or more blocks and watch them grow in value, as development is sure to take place.

The personal property sale consists of about 30 head of horses and mules; 50 head of cattle; 75 to 100 hogs and pigs; big lot of farming tools and implements.

The greatest land sale of

The Most Welcome Tire That Ever Came to Market

Men Who Appreciate Superlative Values Prefer The Brunswick

In every great tire factory, the
chief question is: "How much can
we give for the money?" And the
product depends on the policy
adopted.

Every man who has become ac-
quainted with Brunswick Tires
knows that Brunswick standards
are again evident. This famous con-
cern—noted as a leader in every
line it entered since 1845—has once
more proved that its policy is right.

A perfect tire is simply a matter
of knowledge and standards and
skill. No secrets nor patents pre-
vent making an ideal tire.

But standards come first. For in
tire making there is vast room for
skimping, for subtle economies, for
hidden shortcomings. Makers with-
out the highest standards don't
build high-grade tires.

The Brunswick organization of
tire makers includes a brilliant staff
of technical experts. Not a man

among them has spent less than
20 years in handling rubber.

Each is a master of his craft.
And the new ideas they bring to
the attention of Brunswick direc-
tors receive sincere consideration.

Every proved betterment is
adopted unanimously.

The Brunswick Tire is a combi-
nation of acknowledged features—
plus Brunswick standards of manu-
facture.

The result is a super-tire, the like
of which you have never known be-
fore. The kind of a tire you will
gladly join in welcoming.

Yet Brunswicks cost no more
than like-type tires.

Try ONE Brunswick. We prom-
ise a surprise. And we feel certain
that you will want ALL Brun-
swicks.

Then good tires will have a new
meaning to you.

Rat Week.
Milk for America.
Roper for Secretary.
Fear, a Queer Poison.

(By Arthur Brisbane.)

(By Arthur Brisbane.)

A picture in good old London Punch describes the attitude of certain prosperous people in the United States toward "Bolshevism," "radicalism," etc.

In England they are having "Rat Week" to clear out all the rats. The picture in Punch shows two nice old English ladies going up in a balloon to get away from the rats during Rat Week. They do not realize that just when there is most attention concentrated on rats those rats are least apt to be dangerous.

Otto H. Kahn, musical financier, and Elisabeth Marbury, human dynamo, are working together on a campaign to get "milk for the Children of America."

It was time to start such a campaign, for children of America also drink milk, and with milk as high as 21 cents a quart in great cities it was time for charity to come home and roost for awhile.

One of the ablest doctors in the country said yesterday: "For children up to fourteen years of age no bread by MILK is the staff of life. Physicians realize more and more that milk, pure and abundant, is absolutely necessary to the well developed child."

If Mr. Kahn and Miss Marbury will make themselves the missing link between a few hundred thousand cows and a few million American babies, they will go to Heaven without the slightest doubt.

Miss Marbury was going, anyhow.

A new Secretary of the Treasury is to succeed Mr. Glass, who goes to the Senate. Why not put Mr. Roper, Collector of Internal Revenue, at the head of the United States Treasury?

Mr. Wilson likes to appoint men that are specialists in their line. Mr. Roper is the leading specialist in the finances of the United States. If he would take the job, he would attend to it well, and his knowledge would be useful to a nation that, before all, needs just now to save as many billions as it can.

In France, where one extreme radical candidate advised his hearers to seize the land, the French have elected not extreme radicals but "moderates." They have put sixteen of the extreme radicals out of the Chamber of Deputies.

With six million Frenchmen owning the land of France, you can easily go too far when you talk about seizing land.

Give human beings something worth conserving, and you will find them conservative.

A butcher, cheating with his scales, robs poor people of so many ounces on each sale. A judge fined him \$33 an ounce—high price for meat even in these days.

That was witty, but was it satisfactory justice?

The butcher STOLE so many ounces of meat from his customer, why not lock him up? If a poor woman had gone into his shop and stolen the same number of ounces SHE would have been put in jail, not fined humorously.

Why is stealing from a butcher punished with imprisonment, and stealing from a customer punished with a fine?

The London Daily Express says that in making an American treaty of the European treaty, the American Senate has made "a pathetic attempt to set back the clock and restore the United States to isolation." That isn't exactly it. The American Senate, fortunately, has regulated the clock, set it to running on the American plan. This country can stand a good deal of the isolation that consists in minding our business and letting the rest of the world mind its business.

If you really want to see something pathetic in connection with the Peace League, take a look at poor old John Bull, with his six votes that were to outvote the United States, all dressed up with votes and nowhere to go.

Of all sensations fear is the worst and most strange in its effect. It is the first emotion felt by the new born child, and the first in every animal brain. The infant first fears, then loves, then hates, then feels jealousy—and so on up.

Fear will make man endure that which is infinitely worse than what he fears.

The authorities are investigating a sailor said to have hidden away from service for two months and to have remained in hiding starving during that time. Taken to the hospital, he weighed sixty-one pounds.

happened to him in the navy would have been as bad as that.

Men in all countries have mutilated themselves, cutting off a thumb, a great toe, or even blinding one eye, to keep out of the army. According to statistics, they injured themselves more severely than the soldier is injured on the average.

One man killed himself because he was afraid to fight a duel the next day. A well-known wise man said: "I do not believe in ghosts, but I have been afraid of them all my life."

An interesting book could be written on the psychology of fear, which, within the system, is an acute poison, like hate.

A baker of raisin bread whose product got shyer and shyer or raisins one day received this sarcastic letter: "Herewith I hasten to return a raisin which I found in a loaf bought on your premises this morning. Trusting that you have not been inconvenienced in any way by its temporary loss, I remain, etc."

HAUNT OF ARTISTS MAY BE RED CENTER

GREENWICH VILLAGE, NEW YORK'S BOHEMIA, IS UNDER STRICT INVESTIGATION.

(International News Service.)
WASHINGTON, Dec. 4.—New troubles are hovering over "Greenwich Village," the habitation at the foot of Fifth avenue of artists, literary folks and just plain "bohemians." Inquiry of Attorney General Palmer into "parlor Bolshevism" are leading, among other places, straight down into "the village," and the "intellectuals with advanced thoughts," the declaimers on the "uplift of the downtrodden" and the opponents of "America's industrial despotism" are having cause to hold their heads nearer together over the candle-lit tables, and whisper in more awesome whispers than they have done in a long day.

Authorship of some of the tons of "red" literature and un-American propaganda which have been seized by the agents of the Attorney General is being traced into the haunts of the Village. Not all of it has been written there, to be sure, but there is evidence that some of it has.

For several weeks the agents of Attorney General Palmer have been lurking around the Village, and not before in all its existence has it known such stirring times. Rumors are that the "Government agents are here" have furnished larger thrills than all of the productions of art and literary effort that the Village has sponsored. It has been rumored, and the Department of Justice has not denied it, that there have been almost as many Government agents in the district as there were regular inhabitants.

Along last May, when the home of Attorney General Palmer in Washington was partially wrecked by a bomb, William F. Flynn, former head of the Secret Service, was called to spread a "dragnet" for bombists, terrorists, agitators and the distributors of anti-American propaganda. Mr. Flynn made no statements or announcements. He did not give out interviews or receive visits of the newspaper men. He set to work building up an organization and looking for evidence on which the Government could act decisively, thoroughly and effectively.

Some time later—the office of the Department of Justice do not say just how long—the eyes of Mr. Flynn were focused on Greenwich Village. He suspected it was a breeding place for anti-American doctrines, and he sent men and women down there to find out.

BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspironal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter If Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspironal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspironal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—Adv.)

TO RESTORE HISTORIC SPOT

City of New Orleans Taking Steps to Preserve and Beautify Bienville's Landing Place.

An effort is being made in New Orleans to restore the old historic spots around the city. With the restoration of the old Place d'Armes, the rehabilitation of the Cabildo and the Pentha apartments which surround it, and the preservation of all as an artistic center for the old French and Spanish quarter, an effort is being made to restore and preserve the landing place of Bienville, where he first set foot on the high land in 1720, at the place he was destined to convert into Nouvelle Orleans. This landing place, which lies on the river directly facing the Place d'Armes, which is now Jackson square, is covered with the switch tracks of the Southern-Pacific and public belt railroads, and with a part of the large steel warehouse belonging to the board of commissioners of the port of New Orleans.

Supporters of the Louisiana State museum have appealed to the mayor and the various civic organizations to have these sheds and railroad tracks removed at once, inasmuch as the land, clear from the Cabildo to the river itself, was expropriated some time ago to be put in historical and artistic reserve. As all the waterfront of New Orleans and the east bank of the river belongs to the city and state forever, the completion of the artistic center is sure of accomplishment.

In Washington.

DEPUTY FOR STATE HARBOR COMMISSION GIVES ENDORSEMENT

Declares that nothing ever did for him what Dreco, the new root and herb medicine, has done.

BAD STOMACH TROUBLE

Gastritis, constipation, sluggish liver, dizzy spells, nervousness, poor sleep—overcome for this well known man.

"I am glad to give a public endorsement for such a worthy medicine as this new remedy Dreco has proven to be in my case, which was a bad one, says Mr. A. B. Lyons, Deputy Wharfman for the State Harbor Commission, Mobile, Ala.

"My liver was sluggish and I often had dizzy spells, bad taste in my mouth, coated tongue, and spots floating before my eyes. My kidneys were weak, and I had dull, aching pains in my back. After each meal my stomach would begin to swell up with sour gas, and feel like it would burst. Seemed like I was full of fire sometimes."

"I dreaded for night to come because I could not sleep, but would roll and toss from one side of the bed to the other, and when morning came, I would be more worn out and tired than when I went to bed the night before."

"Dreco has stopped all that though, even the alarm clock fails to wake me now, for I'm sleeping so sound. The constipation is entirely relieved; nervousness gone, and my liver is acting like a piece of well oiled machinery. I can't say enough in praise of this great remedy, Dreco."

Dreco is made from herbal plants, which act on the vital organs in a prompt and pleasant manner and restores them to healthy action.

All progressive druggists throughout the country now sell Dreco and it is highly recommended in Albany by Albany Drug Co. and in Decatur by Hilda Drug Co.—Advertisement.

"Everything Is Ready"

A man's heart is very near his stomach. Light, fluffy biscuits and a good dinner are sure to please him after a hard day's work. Use Valier's Dainty Flour and do full justice to your cooking ability. It produces results impossible to secure with flour of ordinary quality.

Valier's Dainty Flour

Is milled slowly from the choicest parts of the finest soft wheat. All the baking qualities of the grain are retained. This, plus silk-sifted texture and absolute cleanliness, makes baking with Valier's Dainty Flour a delight. Try it and you cannot fail to note its superiority. It is economical, too. Less lard is needed.

VALIER'S SELF-RISING FLOUR
Is a high-grade Valier Flour with self-rising ingredients, mixed in the proper proportions. Requires no salt or baking powder. Try a sack.
